# Create Frontline Training Videos 90% Faster with AI

Make, Update, & Translate Videos in Minutes

By utilizing advanced artificial intelligence and machine learning algorithms, Synthesia allows businesses to create realistic video training scenarios without the need for traditional filming equipment, actors, or studio time.

Simply upload your Synthesia video(s) into an Alchemy Training System course to create a customized learning experience in a fraction of the time and a lot less dime!

Engage Employees with Realistic Avatars & Voices

Use lifelike AI avatars and personalized video content to captivate your learners, making training more engaging and memorable. Choose from 200+ avatars and voices, and 140+ languages to tailor the content to your specific needs.
