- **Operating System:** Windows 11
- **Connectivity:** Internet connection required
- **Permissions Required:**
  - Camera (for photo/video capture, if desired)
  - Microphone (for audio recording, if desired)

## Support Policy

Intertek Alchemy performs quality testing and confirms the support of the versions of Apple, Google, and Windows operating systems that are currently vendor supported. This means the application is verified for compatibility with OS versions that are actively maintained and receive security updates from their respective vendors.

Devices or OS versions older than this may experience limited functionality or be unsupported.
